

Vaccination Requirement for Umrah Passengers

Effective Date: 01st February 2025

Dear Travel Partner,

Greetings from Saudia!

To ensure compliance with health regulations, all passengers traveling for Umrah or intending to perform Umrah or Visit (regardless of visa type) must be vaccinated with the Quadrivalent Neisseria meningitis vaccine (polysaccharide or conjugate type).

Vaccination Certificate Requirements:

Vaccine	Quadrivalent Neisseria meningitis vaccine
Vaccine Type	Polysaccharide or Conjugate type
Issued Date	At least 10 days before arrival
Validity	Polysaccharide Type: Not more than 3 years old
	Conjugate Type: Not more than 5 years old

Passengers must present a valid vaccination certificate at the Check-in counter.

For further details, please refer to the GACA circular: 15597/2 dated 07-01-2025 and MOH health requirements for Umrah passengers.

We kindly request all travel agents and operators to ensure this information is shared with their customers and passengers at the earliest.

Thank you for your cooperation.

Regards
Team Saudia
